ABOUT THE CITY

Our project will take place in one of the most beautiful cities in Poland. Krakow is a vibrant city where you can never get bored. This is partly due to the strong presence of students: over 100,000 students from Poland and around the world study in the city. The beautiful historic Old Town is listed as a UNESCO World Heritage Site. Dozens of monuments and museums attract tourists from all over the world. In Krakow, you will find a wide range of cultural events and festivals of all kinds, some also available free of charge. It's a perfect environment for creative thinking and actions. The city and its surroundings are also full of charming green areas, ideal for relaxation and outdoor activities. You will live in the very center of the city, which will allow you to take full advantage of its cultural, tourist and gastronomic offer. However, the host organizations are located in different, sometimes suburban, districts of Krakow. Thanks to this, you will get to know the diversity of the city and the usual life of its inhabitants better.

Krakow is located in the south of Poland. It is very well connected with the rest of the country. In their free time, volunteers can enjoy the proximity of national parks and mountains or visit other wonderful Polish cities and neighboring European capitals.
